Hridoy Ahmed

Software Engineer, Frontend

I am an enthusiastic frontend engineer with a passion for learning new technologies and applying this knowledge to solve problems. I strive to write clean, suitable, and readable code to enhance user experiences and improve application performance.

WORK EXPERIENCE (5 years+)

10 minute school

Software Engineer Frontend

11/2019 - Present

Dhaka, Bangladesh

Achievements/Tasks

- Worked on **10 Minute School** platform, using **Angular** for course display, progress tracking, and certificates. Also collaborated on **Next.js** for managing landing page content, ensuring a seamless user experience.
- Implemented **Mixpanel** tracking within the 10 Minute School platform, enabling advanced **analytics** and user behavior **tracking** to enhance engagement, refine content strategies, and improve overall platform performance.
- Designed and developed the **Affiliation Program** website from scratch using Angular, ensuring a seamless user experience and modern interface.
- Developed a **Progressive Web App (PWA)** for the Affiliation Program website, enhancing user engagement and providing an app-like experience on mobile devices.
- Designed and developed a comprehensive **teacher dashboard**, enabling functionalities such as **exam creation**, **class management**, teacher assignment, teacher assistant assignment, and doubt solver assignment, improving overall efficiency for educators.
- Developed an **advisor dashboard** enabling SMS communication, transaction monitoring, product exchange, extension, and **payment validation**, optimizing advisor workflows for increased efficiency.
- Developed a **CMS** with **Angular** and **Angular Material** for K12 and Skill Up sections, simplifying course, quizzes, and lessons management, and streamlining content updating and assignment processes for improved educational delivery.
- Developed a **sales dashboard** using Angular, **Chart.js**, and **Tailwind CSS**, showcasing sales, affiliate, and product reports, facilitating data-driven decision-making for enhanced business performance.

● CLIP N TOUCH

Software Engineer Frontend

07/2018 - 11/2019

Dhaka, Bangladesh

Achievements/Tasks

- ◇ Developed an **inventory management system** using **AngularJS**, handling all aspects of the project from start to finish as the sole developer.
- ◇ Collaborated closely with team members to **design** intuitive interfaces and implement robust features, fostering effective communication and continuous learning.
